

I am writing to express my concern over possibly losing my K-Love station (88.9 FM out of Wilmington, NC) due to the expansion of LPFM broadcast service.

K-Love serves as the only radio station in my area that I know of that is commercial free! The music that is played is encouraging wholesome and uplifting. I am never concerned about what may be heard by small children when I have this station playing. It is the only music I will listen to while in my car and at home.

My local community is greatly effected by K-Love. It is used as a tool to get the message of Jesus Christ to those who may not ever step foot in a church! I know from my own experience that I began listening to K-Love several months before I started going back to church. There is something for everyone on K-Love that can reach all people from every age group - with one common message - Jesus.

Should K-Love not be available to my area, it would have a huge negative impact on the lives of Believers in Jesus Christ as well as those who are searching for that personal relationship that only He offers!

The service that is provided by K-Love is important! I have family and friends that listen to K-Love in other areas of the country and it is so awesome to know that when I am hearing a song, someone I love and miss is listening to the same song at the same time! It connects us and our community with the rest of the country! K-Love is a commom denominator in the lives of many Believers and it is something that my friends and family look forward to daily during commutes to work and school.

It is my prayer that the you, the FCC, will not take my K-Love signal away from me and the community in which I live. It has changed my life and continues to change lives every day. I, as well as my family and community, would be extremely disappointed if we were to lose this very important station in our area.

Thank you for listening to my concerns. Please keep K-Love in all areas around the country!

God Bless,  
Gina Keeley
